KEVIN HUGHES

FULL-STACK WEB DEVELOPER

PERSONAL PROFILE

A passionate and dedicated web developer with a keen eye for crafting beautifully designed applications and a relentless drive for writing clean, efficient code. With a strong background in client-facing roles, I have developed excellent communication skills and a focus on exceeding stakeholder expectations. My goal is to deliver high-quality, fully realized solutions that not only meet, but surpass, project requirements.

- **Frameworks:** React, React Native, Angular, Vue.js

WEB DEVELOPMENT

Full-Stack Web Development
2021 - PRESENT

- Developed a complete full-stack RESTful app, utilizing MongoDB for the database, and React & Redux for the front-end. Implemented user authentication, dynamic data handling, and real-time updates.
- Built a cross-platform chat app using React Native and Expo.io, incorporating features such as real-time messaging, photo sharing, and location sharing for an interactive mobile experience.
- Created a fully functional e-commerce platform with React, React Context API, and Next.js. Integrated Stripe for payment processing and Sanity CMS for content management, allowing users to browse products, manage carts, and complete transactions seamlessly.
- Developed a decentralised blockchain app using React and Solidity for sending and receiving cryptocurrency. Integrated Tailwind CSS for styling and Vite for optimized build performance, enabling users to securely transfer digital assets on a Web 3.0 platform.

OTHER WORK EXPERIENCE

Language Specialist
2006 - PRESENT

- Coordination of teams and projects enabling delivery of client-focused, first-rate services to achieve the ultimate objective of exceeding stakeholder expectations.
- Design of pedagogical products shaped to the client's specific needs.
- Translation project manager and translator of technical texts.
